Forecast for Saturday 10 Jul 2021

Weather: Cloudy for the majority of today, with limited sunny spells breaking through at times. Outbreaks of light rain are possible this morning, especially across southern areas. Then isolated light showers developing this afternoon, before largely dying away this evening.

Chance of cloud free mountain/hill tops above 600m: 40% this morning, rising to 70% this afternoon.

Visibility: Low cloud moving across the park this morning, with bases dropping to 500-600m, bringing moderate visibility. This lifting this afternoon to above the summits, but visibility dropping temporarily in any showers.

Meteorologist's View

Although rain/showers will be scattered through today, they will still make slopes and paths wet. Thus, care should be taken and appropriate footwear should be worn.

Recent rainfall: measured at Neuadd: altitude 353m

Forecast for Sunday 11 Jul 2021

Weather: Predominantly dry and cloudy with just the odd light shower possible overnight and through the morning. Outbreaks of rain will spread north during the afternoon, becoming locally heavy, especially across southern areas, and then persisting into the evening.

Maximum wind: Winds on the summits southerly 15mph, gusting 25 mph.

Chance of cloud free mountain/hill tops above 600m: 30% overnight, increasing to 60% through the day.

Visibility: Low cloud with bases 400-500m covering the park overnight, bringing poor visibility to summits and higher slopes. This cloud generally lifting to above the summits toward midday, but with scattered amounts remaining at lower levels at intervals through the day. Visibility also lowering in the rain developing through the afternoon and evening.

Temperature: **Valleys:** Plus 13 Celsius, rising to plus 18 Celsius.

At 600m: Plus 11 to 14 Celsius

Freezing level: Above the summits
